IVERS & POND PIANO

First Prize District No. 2 Value \$450.00

These instruments represent the highest standard ever attained in artistic piano building. The most costly materials that the world affords and the most expert labor only are used in their construction. Thus IVERS & POND PIANOS can be depended upon to give the finest effects in tone quality, ease and precision of action, touch, etc., while in durability and freedom from repair necessities they are unequalled. Requiring each year less than half the number of yearly tunings of the average "commercial" piano their economy for maintenance expenses will strongly appeal to the prudent buyer. These pianos are filled with practical, up-to-date improvements, many of them patented, to increase the volume and purity of tone quality, to resist the harmful effects of climate changes, etc.

Fully Guaranteed by the makers and by the G. A. Reed Piano & Organ Co. They want you to call and let them tell you all about this piano.

First Prize District No. 1 Value \$450.00

This instrument is one of the most popular of the Lester styles. The simplicity of its design is highly artistic and has found favor with those who do not desire a carved case. The moldings, bases of pilasters and the double trusses are solid Mahogany or hard Indiana white quartered Oak; the pilasters are beautifully veneered to match the case. The veneering inside and out, is of the finest nature figured Mahogany or Oak, double and cross-banded. The panels across the back, top and bottom are veneered in Mahogany or Oak, and the massive hardwood posts, in their natural color, are varnished. This piano is a full-sized Upright, Grand, 4 feet 10 inches high, 5 feet 5 inches wide, and 2 feet 3 inches deep.

THE LESTER PIANO—Fully guaranteed by the makers and by Willis & Spearman. They invite your inspection.
